01

Flammable Goods Cabinets

All Flammable Goods cabinets include the following:

- Sequentially closing double doors
- Flush mounted key lock with 2 keys
- Powder coated with UV-resistant exterior formula
- Adjustable galvanized steel with vents and drain channels
- High-vis vest, chemical resistant gloves

Class 3 : Flammable Liquids
Class 4.1 : Flammable Solids
Class 4.2 : Spontaneously
Combustible Solids
Class 4.3 : Dangerous when Wet

Flammable Goods Cabinets

The Flammable Goods Cabinet provides safe and compliant storage for class 3 and 4 flammable liquids. Constructed from robust 1.2mm thick steel with a 40mm air cavity, this cabinet exceeds requirements of AS/NZS 1940:2017, withstanding temperatures up to 850°C.

- The construction features a 150mm high watertight bund to contain spills
- Sequentially closing double doors to prevent fume leaks
- flush-mounted key lock for security
- The cabinet has adjustable galvanized steel shelves with vents and drain channels to direct any spills to the bund

350L Flammable Goods Cabinet
SKU: TSCW350Y
1825 x 860 x 860 mm

250L Flammable Goods Cabinet
SKU: TSCW250Y

60L Flammable Goods Cabinet
SKU: TSCW060Y
1065 x 515 x 460 mm

30L Flammable Goods Cabinet
SKU: TSCW030Y
770 x 515 x 460 mm

15L Flammable Goods Cabinet
SKU: TSCW015Y
560 x 430 x 430 mm

Flammable Goods Cabinet Shelves

Maximise the storage capacity of your flammable cabinet with this durable extra shelf. Constructed of fully galvanised steel, this shelf is built to last and can hold over 100kg of hazardous materials. The unique double vee design not only strengthens the shelf, but also directs any spills away from the cabinet doors and into the spill containment sump.

Perforations in the shelf allow free air flow as required by safety standards. These shelves will fit our flammable cabinet range and can be adjusted in 50mm increments to accommodate a variety of containers.

Available in 4 sizes

350L Flammable Cabinet Shelf

SKU: TSCW350L-SHELF

Fits any 350L cabinets

250L Flammable Cabinet Shelf

SKU: TSCW250L-SHELF

Fits any 250L cabinets

160L Flammable Cabinet Shelf

SKU: TSCW160L-SHELF

Fits any of our 160L cabinets

60L Flammable Cabinet Shelf

SKU: TSCW60L-SHELF

Fits any 60L cabinets

Interior shelving

250L 316 Stainless Steel Cabinet

SKU: TSCW250SS

1825 x 1100 x 500mm

Safely store your flammable Class 3, 4, and 5 hazardous substances in this 250L 316 Stainless Steel Dangerous Goods Storage Cabinet. Featuring a durable stainless steel construction, this cabinet provides secure and compliant storage for your flammable liquids and other dangerous goods. The cabinet comes with 3 adjustable stainless steel shelves, allowing you to customize the storage configuration to suit your needs.

1000L DG Pod

SKU: TSCW1000DG

1800 x 2100 x 800 mm

The 1000L DG Pod is the ideal solution for safely storing hazardous substances outdoor. This heavy-duty dangerous goods cabinet is constructed from 1.5mm thick steel and powder-coated for durability and corrosion resistance. The built-in spill containment bund can hold up to 504 litres, preventing leaks and spills.

The DG Pod fully complies with regulations for Type B outdoor storage of flammables, chemicals, and toxic substances.

Drum Cabinet for 209 Litre Drum

SKU: TSCW350D

860 x 860 x 1825 mm

Safely store and secure your 209 litre drums of hazardous substances in this heavy-duty Drum Cabinet. Constructed from robust 1.2mm thick steel with a 40mm air cavity, this cabinet is compliant to AS/NZS 1940:2017 for storing dangerous goods. The welded construction and 150mm high watertight bund provide spill containment, double doors with 3-position catches and flush-mounted lock ensure a secure seal to contain fumes.

Galvanized rollers assist with drum positioning and a galvanized, vented shelf provides additional storage for Class 3 substances.

02

Oxidising Cabinets

Fully seam welded heavy 1.2mm thick steel to contain an explosion.

All of these cabinets are manufactured to exceed AS/NZS 1940:2017 and are suitable for the following classes of Hazardous Materials

Class 5.1 : Oxidising Agent
Class 5.2 : Organic Peroxide
Oxidising Agent

Oxidising Cabinets

The Oxidising Cabinet from The Safety Cabinet Warehouse provides safe and secure storage for oxidising substances. This heavy-duty dangerous goods cabinet is constructed to meet safety standards and help to protect your workplace from the risks of oxidizing chemicals. With adjustable shelves and ample storage capacity, this cabinet helps you safely organize and segregate your oxidizing substances to mitigate dangerous interactions.

The cabinet features 2 adjustable shelves, allowing you to customize the storage space to fit your needs. With ample capacity and a durable build, this oxidizing cabinet is ideal for industrial, laboratory, and manufacturing environments that handle oxidizing chemicals.

250L Oxidising Cabinet

SKU: TSCW250YO

1825 x 1100 x 500 mm

100L Oxidising Cabinet

SKU: TSCW100YO

770 x 965 x 620 mm

30L Oxidising Cabinet

SKU: TSCW030YO

770 x 515 x 460 mm

03

Corrosive
Class 8

Fully seam welded heavy 1.2mm thick steel to contain an explosion.

All of these cabinets are manufactured to exceed AS/NZS 1940:2017, AS3780 Standards and are suitable for storing Corrosive Substances.

- Class 8 : Corrosive
- Class 8.1 : Acids (sulfuric acid, hydrochloric acid)
- Class 8.2 : Alkalis (potassium hydroxide, sodium hydroxide)

Corrosive Class 8 Cabinets

The Corrosive Class 8 Cabinet from Safety Cabinet Warehouse is built to the highest quality standards, exceeding AS/NZS 3780 and AS/NZS 1940 (2017) requirements. Its robust, fully seam-welded construction ensures exceptional durability, with 1.2mm thick steel and a 40mm air cavity designed to contain explosions. Unlike cabinets that use pop rivets, which can fail under heat, this cabinet is engineered to withstand extreme conditions without compromising safety.

250L Corrosive Class 8 Cabinet
 SKU: TSCW250B
 1825 x 1100 x 500 mm

160L Corrosive Class 8 Cabinet
 SKU: TSCW160B
 1295 x 1100 x 460 mm

Hazardous Chemical Signage

Safety Data Sheet Holder

SKU: TSCWSDS

The Safety Data Sheet Holder from The Safety Cabinet Warehouse is the ideal solution for safely storing your safety data sheets (SDS) and keeping them easily accessible for viewing, as required by workplace health and safety laws.

This sturdy holder is made from non-sparking, solid hard moulded material to protect your important safety documents.

It provides ample space for organizing your safety data sheets.

Keep your workplace compliant and your employees informed about the dangerous goods and hazardous substances you store with this essential safety data sheet holder.

16

Battery Charging and Storing Cabinets

Lithium-ion Battery Charging and Storing Cabinets

- Designed to prevent battery explosions with multiple fans for cooling each compartment.
- Provides outlets for pressure release in case of an explosion.
- HotWall™ insulation offers continuous fire protection up to 1260°C.
- Insulated shelves compartmentalize fires to prevent spread between batteries.
- Allows burning batteries to safely expend energy and burn out.
